B. Memo for D/L from [REDACTED] AGC, dated 29 June 1981, subj: Employee Parking - [REDACTED] 123 (OGC 81-05255) (U)

1. On 2 March 1982 you signed a recommendation by the Inspector General (noted in reference A) instructing the Director of Logistics to eliminate the need for employees assigned to the [REDACTED] Building to pay parking fees. An opinion written by one of the attorneys of my Office and prepared for the Director of Logistics (reference B) identified the legal requirements necessary to utilize appropriated funds to pay for employee parking. This opinion stated that section 8 could be utilized "[I]f it is determined that such facilities are necessary for the performance of the Agency's mission." (U)

2. To effectuate your wishes in this matter and ensure that the reasons for authorizing the payment are set forth in the record, I have prepared for your signature a Determination and Finding. The Inspector General's findings and conclusions, as I read them, do not clearly set forth why payment of parking fees are necessary for the performance of the Agency's mission. (U)
